

Temporary Research Associate-1 project position available

Project

Expanding the repertoire of cellular functions of Mixed Lineage Leukemia protein

Profile

An immediate Research Associate-1 (postdoctoral) position funded by DBT India Alliance/ Wellcome Trust is available in Shweta Tyagi's laboratory of Cell Cycle Regulation on purely temporary basis.

The Research Associate-1 will be responsible for carrying out various bioinformatic analyses for different projects in the laboratory.

Interested candidates should contact directly Dr. Shweta Tyagi (shweta@cdfd.org.in) with a CV; brief description of PhD/ other past research projects, technical skills, publications and contact information of three referees.

Salary

INR 47000/- plus HRA (as applicable)

Essential qualifications:

Ph.D. in bioinformatics, molecular biology, cell biology, biotechnology or relevant scientific discipline.

Desirable Qualifications:

Experience with computational/bioinformatics tools used for NGS analysis particularly RNA-seq or ChIP-Seq, proficiency with using Linux and BASH or other similar shell, comfortable in developing code in Python and/or R for data analysis and visualization.

Last date for applying: 30th April, 2023
